MASK A2P2

DEFINITION

Reusable half mask with A2P2 filters that protect against organic vapours and particles.
Ready to use kit half mask + A2 filter + P2 prefilter.

Code	Descripción
68575	ROBMASK half mask
68576	ROBMASK filter A2
68577	ROBMASK prefilter P2

CHARACTERISTICS

- It offers excellent visual field thanks to the position of the filters and is compatible with eye protection.
- Very light and suitable for long term work.
- Great comfort for breathing
- Easy and fast maintenance: easy cleaning of the face piece and quick assembly/disassembly of the filters.
- Adjustable harness.
